Model featured: The new MINI Electric Level 3 personalised with White Silver metallic exterior paint colour, Energetic Yellow mirror caps with roof in black and 17" Electric Power Spoke alloy wheels in two-tone.

FEELS LIKE ELECTRIC, LOOKS LIKE MINI.

If you're looking for a car that's all torque, as well as action, then let us introduce the latest MINI Electric. It feels better than ever, with immediate oomph thanks to instant torque. And it looks better than ever too. With a sharper, sleeker update to its legendary MINI look and, of course, that MINI Electric feeling. The new MINI Electric is the best of both worlds, giving you the iconic character of MINI with all the benefits of going electric. Emitting zero emissions, it's the perfect combination of sustainable driving, thrilling driving performance and iconic MINI design. The new MINI Electric is reinventing urban life.

- Rain sensor and automatic headlight activation

INFOTAINMENT:

- MINI Navigation System
- MINI Connected
- Real Time Traffic Information (RTTI)
- Apple CarPlay
- Remote Services
- ConnectedDrive Services
- Intelligent emergency calling (E-call)
- MINI Teleservices
- Car Share Preparation

TECHNICAL DATA.

PERFORMANCE.

- Max. output: 184 hp
- Max. torque: 270 Nm
- 0-37 mph: 3.9 seconds
- 0-62 mph: 7.3 seconds
- Top speed: 93 mph

BATTERY.

- Battery type: Lithium-Ion
- Gross battery content¹: 32.6 kWh
- Net battery content¹: 28.9 kWh
- Battery capacity¹: 93.2 Ah

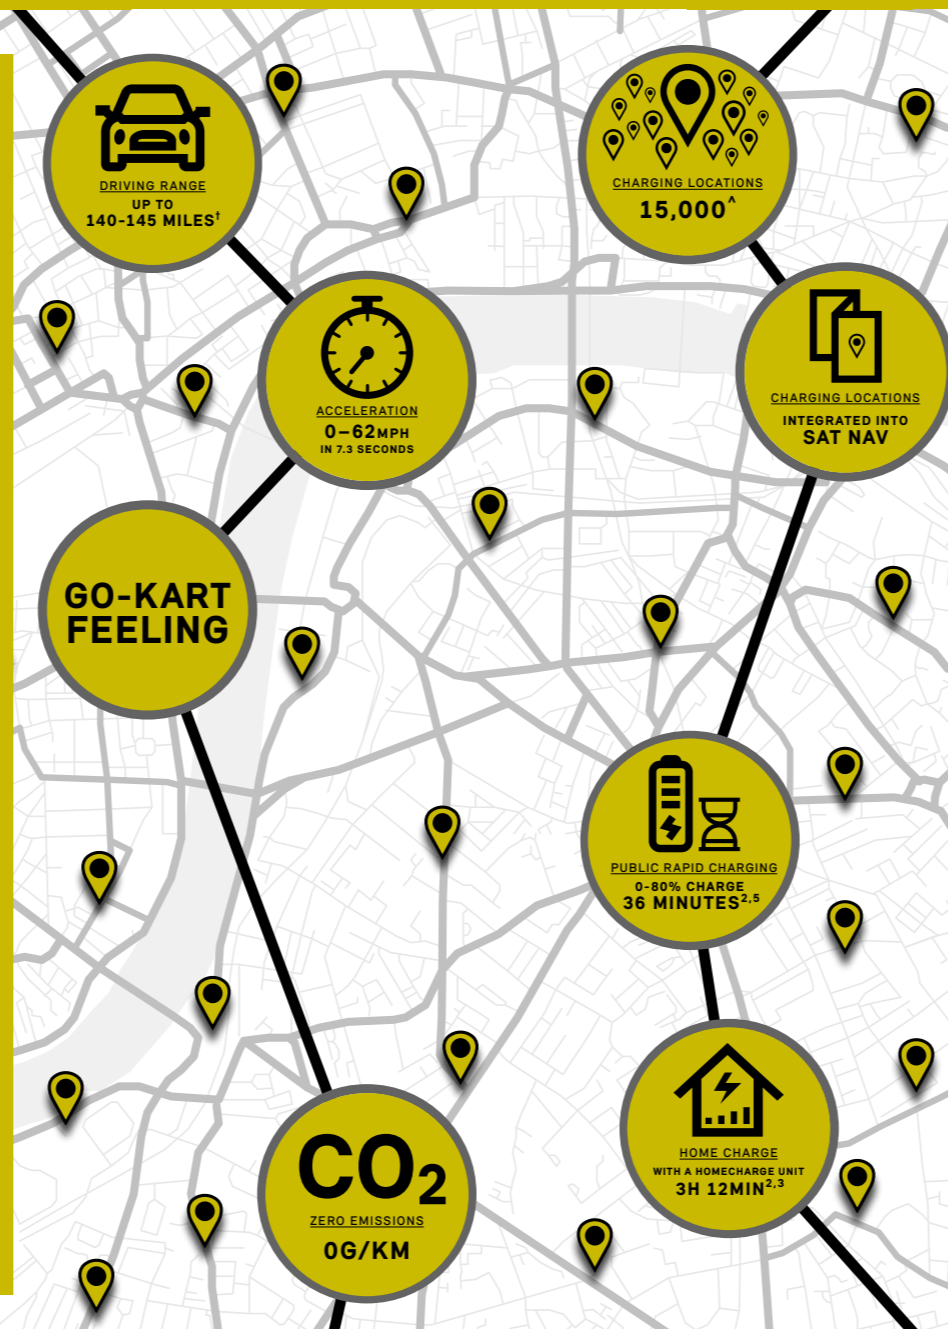

RANGE AND CONSUMPTION.²

- Electric Range: 140 - 145 miles[†]
- Electric energy consumption (weighted): 3.9 - 4.1 miles/kWh (15.8 - 15.2 kWh/100 km)
- CO₂ emissions: 0 g/km

¹High voltage.

²These figures were obtained after the battery had been fully charged. The new MINI Electric is a battery electric vehicle requiring mains electricity for charging. There is a new test for fuel consumption, CO₂ and electric range figures. The electric range shown was achieved using the new test procedure. Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures. The CO₂ figures have been determined according to the WLTP test. WLTP has been used as the applicable CO₂ figure from 1 April 2020 for first year vehicle tax (VED) and from 6 April 2020 for company car tax (BIK). The CO₂ figures were previously based on the NEDC equivalent.

[†]These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

EASY HOME CHARGING OR CHARGING ON THE GO.

The new MINI Electric includes AC for easy home and public charging and DC for rapid public charging.

CHARGING CABLES.

The new MINI Electric comes with both an AC occasional home charging cable (3-pin plug) and an AC public charging cable (type 2 - 11 kW) as standard.

PUBLIC CHARGING.

You can use both AC public charging and DC rapid chargers (with their own cables ready to use). Just activate your MINI Charging account to access more than 12,000 public charging points in the UK.*

HOME CHARGING.

You can charge your car at home using the occasional 3-pin plug home charging cable or your Homecharge unit.¹

CHARGING TIME.²

Home charging (AC)

| | | |
|--|--------|---------------------------------|
| With occasional home charging cable (3-pin plug) | 2.3 kW | 12 hours |
| With Homecharge unit ¹ | 7.4 kW | 3 hours 12 minutes ³ |

Public charging (AC/DC)

| | | |
|-------------------------|-------|---------------------------------|
| With AC public charging | 11 kW | 2 hours 30 minutes ⁴ |
| With DC rapid charger | 50 kW | 36 minutes ⁵ |

MINI CHARGING.

MINI Charging is your gateway to one of the world's largest public charging networks. You will have access* to more than 12,000 public charging points in the UK across a range of providers, using just one RFID card or via a mobile app. What's more, your MINI Charging account is also valid across Europe. You can monitor your charging history directly from your account, and you can find MINI Charging locations via the MINI Charging App or on [MINI-Charging.com](https://www.mini-charging.com). MINI Charging also comprises a one-year free upgrade to include a bp pulse subscription package*, offering discounted and preferential charging rates at bp pulse points (normally worth £7.85 per month).

PARTNERSHIP WITH BP PULSE.

For home charging you can use the bp pulse Homecharge unit. For more information please visit mini-electric.bpchargemaster.com

^{*}Source: Zap-Map. ^{*}Access is included with all new MINI Electric models delivered from April 2021. [†]The Homecharge unit is not included in the price of the car, it has to be purchased separately. For more information please check mini.co.uk or speak to your MINI Retailer. ²Charging time corresponds to an 80% charge. Charging times are approximate and may vary depending on various factors such as the type and condition of the charger and the temperature of the battery at the point of use. ³Charging time applies to any 7.4 kW Homecharge unit. ⁴A 100% charge is achieved in 3 hours 30 minutes. ⁵A 100% charge is achieved in 1 hour 24 minutes.

* The price shown includes the HM Government Plug-In Car Grant of up to a maximum of £2,500. The receipt of this grant is subject to the eligibility of the vehicle for the Plug-In Car Grant scheme at the point of the vehicle's first registration in the UK. The grant amount and vehicle eligibility may change from time to time following Government policy or regulation. OTR price is based on the Recommended Retail Price (including VAT) and On The Road charges (including delivery and emergency service, vehicle first registration fee and VED costs). [†]Personalisation options are available at no additional cost. [‡]Metallic exterior paint colour. ¹Seats don't include lumbar support. ²Seats include lumbar support. ³White Silver exterior paint colour is not available with roof and mirror caps in body colour. ⁴Midnight Black exterior paint colour is not available with roof and mirror caps in Jet Black. ⁵Chili Red and British Racing Green exterior paint colours are not available with Energetic Yellow mirror caps. ⁶Roof and mirror caps come in body colour³ as standard, the colour is overridden if roof and mirror caps in white or black are selected, and if mirror caps in Energetic Yellow are selected this will supersede the white or black caps.

THE NEW MINI ELECTRIC COLLECTION.

The new MINI Electric welcomes a new edition: the MINI Electric Collection. Created as the 'Designers Choice' from MINI, the Collection is a truly unique MINI Electric. Coming with a fixed standard specification apart from an exterior colour personalisation option and optional upholsteries, the new MINI Electric Collection is based on the Level 3 and includes some unique features such as the 17" Electric Collection Spoke alloy wheels and Collection exterior graphics. It's also the only MINI Electric which includes the new exterior paint colours, perfectly partnered with the new multi-tone roof and Piano Black Exterior. The interior design complements the exterior of the car, thanks to sport seats upholstered with cloth/leatherette in Light Grey and Aluminium interior trim.

THE NEW MINI ELECTRIC SHADOW EDITION.

From £32,550 OTR*

The Shadow Edition's sleek look and bold attitude push the playful MINI spirit to new levels. This sporty and masculine inspired special edition is now offered on the new MINI Electric model. Based on the Level 3, the Shadow Edition is given a definitively grown-up look thanks to the Midnight Black metallic exterior paint colour, Piano Black Exterior and 17" Tentacle Spoke alloy wheels in black. Fully electric, this edition focuses on blacked out features with contrasting decal highlights. The bespoke Shadow Edition logo, embellished with a unique design, can be spotted on the side scuttles, bonnet, roof, dashboard interior trim and door sill finishers too. These specific Shadow decals offer changing tones and textures depending on the light conditions. You can also personalise your limited edition thanks to various options[†], so what are you waiting for?

EYES ON THE PRICE.

LIVING WITH ELECTRIC.

HOW MUCH DOES IT COST TO OWN A NEW MINI ELECTRIC?

FINANCIAL PERKS.

The government currently offers £2,500* towards your new MINI Electric as it's classed as a low-emission vehicle. Plus, if you're considering the new MINI Electric as your company car, it will have a BIK tax rate of 1% for the year 2021/22.

CHARGING COSTS.

The cost per mile for the new MINI Electric is only 4p, which is approximately 2 to 5 times cheaper than cars with a petrol or a diesel engine.**

To find out more about the benefits of owning an ultra low emission vehicle, visit www.GoUltraLow.com

*The receipt of this grant is subject to the eligibility of the vehicle for the Plug-In Car Grant scheme at the point of the vehicle's first registration in the UK. The grant amount and vehicle eligibility may change from time to time following Government policy or regulation. ** Cost per mile for cars with a petrol or a diesel engine varies between 8p to 19p. Source: UK Government website (26 May 2021). ^ The Warranty on the battery is 8 years or 100,000 miles, whichever is reached first.

IDEAL FOR SHORTER OR LONGER JOURNEYS.

Your life may evolve. Your schedules may vary. But the new MINI Electric will accommodate you for shorter or longer journeys.

YOUR AVERAGE WEEK DAY.

YOUR TYPICAL SUNDAY.

†Cost based on cost per mile of 4p. ††For illustration purposes only and based on the estimated driving range of 140-145 miles. Electric range figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. These figures were obtained after the battery had been fully charged. The new MINI Electric is a battery electric vehicle requiring mains electricity for charging. There is a new test for fuel consumption, CO₂ and electric range figures. The electric range shown was achieved using the new test procedure. Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures.

MINI APP.

With your new MINI Electric, the MINI App includes some unique remote features:

- Pre-condition your car remotely
- Search for charging stations near your car or any location
- Check the range remotely
- Check the charging status remotely
- Start charging your car remotely
- Assess the driving efficiency of your latest journey

For more information please check out the MINI App Discovery Guide, visit mini.co.uk/connected or scan the below QR code.

FAQ.

Q Is the new MINI Electric only available as a 3-door?

A Yes.

Q What is the Warranty on the battery?

A The Warranty on the battery is 8 years or 100,000 miles, whichever is reached first. The battery is also included in the price of the car.

Q Are there single options available to select?

A Yes, you can now personalise your new MINI Electric even more with the single options offered on Level 2, Level 3 and on the new MINI Electric Collection, such as steering wheel heating, roof rails, sun protection glass, Active Cruise Control and even Piano Black Exterior. A large selection of paint and wheel options is also available on Level 1, Level 2 and Level 3 at no extra cost.

Q How much does it cost to charge the new MINI Electric?

A Based on £0.163 per kWh on average it costs £5.31 for a full charge. 1 mile costs only 4p.

Q How can I find public charging stations?

A Just use the MINI App on the move or see the charging locations integrated into your Sat Nav! To find MINI Charging points you can also use your MINI Charging App or check the MINI Charging website: MINI-charging.com

Q How and where can I charge my car?

A You can charge your car at home using your bp pulse Homecharge unit or your 3-pin plug home charging cable. You can also charge your car at one of many public charging stations in the UK, using either AC or DC charging.
