# STANDARD / OPTIONAL EQUIPMENT HIGHLIGHTS.

Automatic air conditioning with four-zone control is controlled by separate displays for the driver, front passenger and rear seat passengers. This feature includes a fully automatic temperature control with five levels of intensity.

The roller sunblind with the mechanical blinds for the two rear side windows, provide protection against strong direct sunlight and help prevent the interior from heating up too quickly. They also maintain privacy in the rear of the car.

Ambient lighting creates a relaxed lighting atmosphere, including ambient light accents and the welcome light.

With BMW Gesture Control certain functions can be operated by means of defined hand movements. For certain operations the system will, for example, recognise gestures such as 'swiping' or 'pointing' for accepting or rejecting an incoming call, or circular motions of the index finger to adjust volume. Also available as part of Technology Package.

The full-colour BMW Head-up Display projects all information relevant to the journey directly into the driver's field of vision.

The Lane Change Warning permanently monitors the zones to each side of the vehicle. It detects vehicles in the blind spot when above approximately 6mph and warns the driver via a vibration on the steering wheel and flashing symbol in the exterior mirror.

Listen to your favourite music wherever you are. Classical on the motorway, jazz during rush hour and pop when you're cruising. With Connected Music, you can directly stream as many as 30 million songs without any limits, courtesy of BMW's music partners Deezer and Napster, using the SIM card installed in your vehicle.<sup>1</sup>

Apple CarPlay® Preparation enables an iPhone® to be used wirelessly, conveniently and safely via the user interface in the vehicle. Smartphone contents and functions such as music, iMessages/SMS, telephony, SIRI and selected third-party apps can be displayed and operated in the customary manner. Part of the Connected Package Professional which is available on a three-year subscription. Renewable thereafter. The subscription for Apple CarPlay® is available and active without runtime limitations.<sup>2,3</sup>

The BMW Live Cockpit Professional includes a high-quality display network consisting of a high-resolution 10.25" Control Display that can be operated by touch and a fully digital 12.3" instrument display.

BMW Night Vision with pedestrian recognition makes people and large animals visible on the Control Display from a distance using infrared imaging and illuminates them with the Dynamic Light Spot in the main headlight. An additional warning system is also automatically activated when the vehicle is started, regardless of the status of the imaging display.

Driving Assistant Plus offers automatic driving with greater comfort and security in monotonous and dangerous situations. These can include on the one hand traffic jams, slow-moving traffic or long journeys through the city, on country roads or motorways and on the other hand navigating junctions and hazardous lane changes.

The Reversing Assist camera enables improved orientation when reversing at speeds below 10mph, for example when parking. It shows the area behind the car on the Control Display. Interactive track lines for measuring distance and turning circles assist the driver when manoeuvring, obstacles are marked in colour.

Parking Assistant Plus makes parking and manoeuvring the vehicle easier. It features Surround-view including Top-view, Remote 3D view, Panorama view, PDC and Park Assist with linear guidance, which parks the vehicle parallel or perpendicular to the lane completely automatically. The system works by measuring potential spaces while driving past at a low speed.

<sup>1</sup> = Active and available for three years. Renewable thereafter. <sup>2</sup> = Apple CarPlay® preparation supports the convenient and wireless use of selected iPhone® functions in the vehicle. This allows smartphone content along with functions such as music, iMessages/text messages (only recited not displayed on the screen), telephony, Siri and selected third-party apps to be displayed and operated via the vehicle's user interface and via Voice Control <sup>3</sup> = Usage cannot be guaranteed permanently due to potential future technical developments (of the Service availability and/or Smartphone compatibility/operating systems).

## MUSIC HIGHLIGHTS.

### THE PERFECT SOUNDTRACK.

There's so much to experience while on the road in your BMW. And because the right soundtrack turns every route into an adventure, there's a host of music technology available to ensure the right backing track is played to suit your mood. As standard, all models can simply stream music via Bluetooth and USB. However, the BMW 5 Series Touring has far more on offer for you to unlock thanks to BMW ConnectedDrive.

#### CONNECTED MUSIC.

Your favourite songs anytime, anywhere. With Connected Music you'll always find the perfect soundtrack for the road. Unlimited streaming of millions of songs from BMW's music partner Spotify, Deezer or Napster via the SIM card in the vehicle. All you need to do is log in directly in the vehicle with the access credentials for your premium account to gain access to all your favourites, playlists and audio books.

- ✓ Access to millions of tracks and thousands of audio books.
- ✓ Direct streaming via the built-in SIM card in your BMW without having to use your smartphone.
- ✓ Synchronisation of your favourites and playlists in the vehicle and on all end devices.
- ✓ Available on vehicles fitted with BMW Live Cockpit Professional.

#### BMW MUSIC.

BMW Music powered by Napster brings your favourite music to your BMW. You do not need to register, have an account or a smartphone. All BMW Music powered by Napster tracks are streamed via the SIM card into the vehicle and are only available there.

- ✓ Access to millions of tracks and thousands of audio books.
- ✓ The music is already in your BMW. No registration, no login, no password required.
- ✓ Direct streaming via the built-in SIM card in your BMW without having to use your smartphone.
- ✓ Available on vehicles fitted with BMW Live Cockpit Professional.
- ✓ 3 month trial available as part of Connected Teaser package.

### UNFORGETTABLE JOURNEYS NEED UNFORGETTABLE SOUNDS.

Sound is a significant part of the BMW experience, it's an extra layer to inspire the senses and makes the journey not only immersive but also more enjoyable. The following loudspeaker systems below are available on the BMW 5 Series Touring.

Superior surround sound: the outstanding **harman/kardon loudspeaker system**, available as optional equipment, features a 600W digital amplifier, 9 channels and 16 speakers. Its sophisticated sound perfectly fills the interior space. Vehicle-specific, speed-dependent equalising precisely compensates for any background driving noise.

Optionally available, the **Bowers & Wilkins Diamond Surround Sound System** with two Diamond Dome tweeters features outstanding studio-quality sound for every seat in the car. 16 carefully positioned speakers ensure a mesmerising sound experience. The speakers are illuminated, visually emphasising the system's outstanding sound quality.

# The BMW Connected App.

Your personal mobility assistant.

BMW ConnectedDrive.

BMW (UK) Limited reserves the right to alter prices and specifications without notice. BMW (UK) Limited has made every effort to ensure the accuracy of information but does not accept liability for any errors or omissions.

## VED RATES

Annual VED (second year onwards) for cars costing over £40,000 is payable for five years. VED rates for brand new cars are determined by their CO<sub>2</sub> emissions figure. First year VED applies to the first year of ownership. Annual VED rates apply thereafter. The BMW 5 Series Touring models fall into one of the categories listed below:

CO <sub>2</sub> emissions – combined (g/km)	1-50	51-75	76-90	91-100	101-110	111-130	131-150	151-170	171-190	191-225	226-255	Over 255

Vehicle first registration fee	£55
First year Vehicle Excise Duty	See left

Figures shown are for comparability purposes. Only compare fuel consumption, CO<sub>2</sub> and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. The CO<sub>2</sub> figures have been determined according to the WLTP test. WLTP has been used as the applicable CO<sub>2</sub> figure from 1 April 2020 for first year vehicle tax (VED) and from 6 April 2020 for company car tax (BIK). The CO<sub>2</sub> figures were previously based on the NEDC equivalent. Insurance group figures refer to 50 Group Rating System.

<sup>†</sup> = 48V Mild Hybrid Technology provides many benefits including improved recovery of kinetic energy during braking and support of the combustion engine when accelerating. This helps to reduce CO<sub>2</sub> emissions whilst improving fuel consumption and performance. \* = Figures shown are for comparability purposes; only compare fuel consumption and CO<sub>2</sub> figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. The CO<sub>2</sub> figures shown above have been determined according to the WLTP test. WLTP has been used as the applicable CO<sub>2</sub> figure from 1 April 2020 for first year vehicle tax (VED) and from 6 April 2020 for company car tax (BIK). The CO<sub>2</sub> figures were previously based on the NEDC equivalent.

# BMW CONNECTED DRIVE SERVICES.

BMW ConnectedDrive keeps driver and vehicle connected with the outside world. Digital services, driver-focused technologies and driver assistance systems provide more comfort, more entertainment and more safety. Increase your driving pleasure – with BMW ConnectedDrive.

For further information on BMW ConnectedDrive and the General Terms and Conditions of Service for ConnectedDrive, please see: [www.bmw.co.uk/connecteddrive-information](http://www.bmw.co.uk/connecteddrive-information)

The BMW ConnectedDrive Hotline is available on: +44 (0) 800 561 0555 from Monday to Friday 8am – 7pm and Saturday to Sunday 9am – 5pm.

## GENERAL INFORMATION

BMW (UK) Ltd, Summit ONE, Summit Avenue, Farnborough, Hampshire, GU14 0FB (hereinafter referred to as “BMW”) provides the customer with certain vehicle-related information and assistance functions (hereinafter called “Services”) under the name of “BMW ConnectedDrive”. BMW collects, stores or processes car-related data in compliance with applicable law and only to the extent necessary to provide the Services. BMW does not collect, store or process personal data in course of the Services – except where this is explicitly stated in the service description of the individual Services. In the case of Services that require personal data to be collected, stored and processed so that such Services can actually be provided, BMW informs customers of this in advance by providing this data protection notice. The Services are provided by means of a SIM card installed in the vehicle.

## CONNECTED DRIVE SERVICES DURATION

BMW Music	3 month trial
Apps	3 years
BMW Online Services	3 years
Concierge Services	3 years
Connected Music	3 years
Connected Navigation	3 years
Intelligent Voice Control	3 years
Map Updates	3 years
Real Time Traffic Information	3 years
Remote Services	3 years
Apple CarPlay® Preparation	Active without runtime limitations
BMW Emergency Call	Active without runtime limitations
BMW TeleServices	Active without runtime limitations

## DEACTIVATION

You can have the BMW ConnectedDrive services deactivated through an authorised BMW centre, a BMW subsidiary or a BMW authorised workshop at any time. This also has the consequence that aspects of the emergency call in the vehicle as well as all remaining Services will no longer function.

You can additionally arrange for the remaining Services to be deactivated via “My BMW ConnectedDrive”.

If the vehicle is equipped with the legally required EU Emergency Call (as from April 2018) a deactivation of the BMW ConnectedDrive basic services will not deactivate the vehicle's built-in SIM card. It has to remain active, so that the EU Emergency Call is functional all the time.

Services that are available and active without runtime limitations, cannot be guaranteed for permanent usage due to potential future technical developments (of the Service availability and/or Smartphone compatibility/operating systems).
